## INSTALL THE PLATFORM

Install Docker with easy to use installers for the major desktop and cloud platforms.

### MAC

A native Mac application with a user interface and auto-update capabilities, that is deeply integrated with OS X native virtualization.

[Download \[https://download.docker.com/mac/stable/Docker.dmg\]](https://download.docker.com/mac/stable/Docker.dmg)[Learn More \[/products/docker#/mac\]](#)

### WINDOWS

A native Windows application with a user interface and auto-update capabilities, that is deeply integrated with Windows native virtualization.

[Download \[https://download.docker.com/win/stable/InstallDocker.msi\]](https://download.docker.com/win/stable/InstallDocker.msi)[Learn More \[/products/docker#/windows\]](#)

### LINUX

Install Docker on nodes which have a Linux distribution already installed.

[Install \[http://docs.docker.com/engine/installation/linux/\]](http://docs.docker.com/engine/installation/linux/)[Learn More \[/products/docker#/linux\]](#)

AWS

Quickly deploy, scale, and manage Docker on AWS. Docker for AWS takes optimal advantage of the underlying infrastructure, while providing a modern Docker platform that can be used to deploy portable apps.

Launch Stack (<https://console.aws.amazon.com/cloudformation/home#/stacks/new?stackName=Docker&templateURL=https://editions-us-east-1.s3.amazonaws.com/aws/stable/Docker.tmpl>)

## DOCKER CLOUD

A hosted service for Docker container management and deployment.

### DOCKER CLOUD DEPLOY AND MANAGE DOCKERIZED APPS WITH CLOUD TOOLS

Docker Cloud offers everything your team needs to build, ship and run your Dockerized applications. Easily set up fully automated CI/CD workflows in minutes, from code to production.

Try Docker Cloud

## DOCKER DATACENTER

Docker Datacenter brings container and cluster orchestration and management that is simple, secure and scalable for the enterprise.

### COMMERCIALY SUPPORTED DOCKER ENGINE SUPPORT FROM THE SOURCE

With the Datacenter subscription, enterprises receive hotfixes, patches and technical support for current and older versions of Docker Engine

### DOCKER TRUSTED REGISTRY PRIVATE DEDICATED IMAGE REPOSITORY

Docker Trusted Registry allows users to store and manage their images on-premises or in their virtual private cloud.

### UNIVERSAL CONTROL PLANE DEPLOY & MANAGE DOCKER APPS

Docker Universal Control Plane can be deployed to any private infrastructure or public cloud.
