[Back to Week 3 \(/learn/hadoop/home/week/3\)](/learn/hadoop/home/week/3)

1 / 1  
points

1.  
Name the configuration file which holds HDFS tuning parameters
- 

1 / 1  
points

2.  
Name the parameter that controls the replication factor in HDFS
- 

1 / 1  
points

3.  
Check answers that apply when replication is lowered
-

1 / 1  
points

4.

Check answers that apply when NameNode fails to receive heartbeat from a DataNode

---

1 / 1  
points

5.

How is data corruption mitigated in HDFS

---
